

Orientation for NewWell Service Personnel

This AESC-produced video offers orientation for the new hire, as well as training for the experienced hand. From the first day at work to routine daily operations, this video will help train a new hand in what is expected and what to expect from a career in well servicing. This 10-minute video covers many aspects of working safely including pinch points, safe operating procedures and housekeeping. Can also be used as a recruiting tool. **TV301-VHS or TV301-CD**
