

## **Rig Safety Inspection Forms**

These 8 1/2" x 14" forms offer a complete checklist for rig inspections to ensure that safe operating procedures are being observed. Detailed descriptions of each checklist item and what to look for are printed on the reverse side. When properly used, these forms provide valuable information and documentation for safety, maintenance and insurance programs. A must for field supervisors, crew chiefs and safety personnel. Used by many industry risk managers. Each pad has 50 pages. **SA402**
